

AMENDMENT TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended) A method for displaying programming information in a display of ~~using~~ a remote control device, comprising:

accepting user input into the remote control device for creating a favorites page for displaying in the display of the remote control device, the favorites page having a plurality of icons each of which is assigned a command code to be transmitted by the remote control device to tune an intended target appliance to a channel;

accepting user input into the remote control device for selecting one of the icons from a ~~display of the favorites page~~ while the favorites page is displayed in the display of the remote control device; and

in response to the user selecting an icon, displaying in the display of the remote control device in a first window area information relevant to content available from a provider of content on the channel associated with the selected icon.

2. (Currently Amended) The method as recited in claim 1, wherein the information displayed in the first window area is relevant to content currently being presented by the provider of content on the channel associated with the selected icon.

3. (Currently Amended) The method as recited in claim 1, wherein the information displayed in the first window area is relevant to content to be presented in the future by the provider of content on the channel associated with the selected icon.

4. (Currently Amended) The method as recited in claim 2, further comprising displaying in the display of the remote control device in a second window area, in response to the user selecting the icon, information relevant to content to be presented in the future by the provider of content on the channel associated with the selected icon.

5. (Currently Amended) The method as recited in ~~each~~ any one of claims 1-4, further comprising causing, in response to the user selecting the icon, the remote control device to transmit the command to tune the intended target appliance to the channel associated with the selected icon.
6. (Currently Amended) The method as recited in claim 4, wherein the first window area and the second window area are displayed in the display of the remote control device simultaneously associated with the a favorites page.
7. (Currently Amended) The method as recited in ~~each~~ any one of claims 1-3, further comprising accepting user input into the remote control for expanding and contracting the first window area in the display of the remote control device.
8. (Currently Amended) The method as recited in claim 7, in which the expansion and contraction of the first window area in the display of the remote control device allows overlay and display, respectively, of a user interface page having command function keys simultaneously displayed in the display of the remote control device.
9. (Currently Amended) The method as recited in claim 4, further comprising accepting user input into the remote control device for expanding and contracting the first and second window areas displayed in the display of the remote control device.
10. (Currently Amended) The method as recited in claim 9, in which the expansion and contraction of the first and second window areas displayed in the display of the remote control device allows overlay and display, respectively, of a user interface page having command function keys simultaneously displayed in the display of the remote control device.
